The principal, in consultation with the curriculum specialist and appropriate faculty members will approve grade level advancements, grades, and credits earned.

C. Mentoring

D. Appropriate Courses and Activities

The language arts, mathematics, science and social science curriculum will include opportunities for advanced study such as Advanced Placement courses, dual credit arrangements between secondary and post-secondary schools, differentiated or accelerated instruction or other similar opportunities.

RELIGIOUS-BASED EXCLUSION FROM A SCHOOL PROGRAM

Parents who wish to have their child excluded from a school program because of religious beliefs must inform the superintendent. The board authorizes the administration to allow the exclusion if it is not disruptive to the education program and it does not infringe on a compelling state or educational interest. Further, the exclusion must not interfere with other school district operations.

In notifying the principal, the parents shall abide by the following:

1. The notice shall be in writing;
2. The objection shall be based on religious beliefs;
3. The objection shall state which activities or studies violate their religious beliefs;
4. The objection shall state why these activities or studies violate their religious beliefs;
and
5. The objection shall state a proposed alternate activity or study.

The superintendent shall have discretion to make this determination. The factors the superintendent shall consider when a student requests to be excluded from a program or activity because of religious beliefs include, but are not limited to, staff available to supervise a student who wishes to be excluded, space to house the student while the student is excluded, available principal-approved alternative course of study or activity while the student is excluded, number of students who wish to be excluded, whether allowing the exclusion places the school in a position of supporting a particular religion, and whether the program or activity is required for promotion to the next grade level or for graduation.

Students who are allowed to be excluded from a program or activity which violates their religious beliefs may be required to do an alternate supervised activity or study.

ENGLISH AS A SECOND LANGUAGE

The School Board recognizes the need to provide equal educational opportunities for all students in the district. Therefore, if the inability to speak and understand the English language due to national origin or non-English speaking environments excludes a student from effective participation in the educational programs offered by the district, the district shall take appropriate action to rectify the English language deficiency in order to provide the student equal access to its programs. The board directs the administration to develop and implement procedures which:

- Appropriately identify and evaluate students with limited English proficiency (LEP). Limited English proficient students are those whose native/home language is a language other than English and whose English language skills of listening, speaking, reading and writing are not developed to a level at which they can achieve challenging performance standards in a regular classroom.
- Determine the appropriate instructional environment for LEP students.
- Monitor progress of students receiving English as a Second Language (ESL) or bilingual instruction in order to determine their readiness for the mainstream classroom environment.
- Establish professional standards for staff members who teach bilingual or English as a Second Language programs and provide development opportunities for staff members when needed.

Where feasible, the district may provide support for the student's use of the native language while developing English language skills.

ACCEPTABLE USE OF COMPUTERS, TECHNOLOGY AND THE INTERNET

The Board supports the use of computers, technology and the Internet in the District's instructional program as a resource to educate and inform. The use of these resources shall be consistent with the curriculum adopted by the School District and shall be employed in an appropriate and responsible manner to meet the varied instructional needs, learning styles, abilities and developmental levels of students.

Procedures and Guidelines

The Superintendent shall develop and implement appropriate procedures to provide guidance for computer use and Internet access. Guidelines shall address teacher supervision of computer use, ethical use of electronic media, and the District's ownership and right of administrative review of electronic files and communications. The term "electronic media" includes, but is not limited to, the Internet, e-mail and other technological resources.

The guidelines shall prohibit utilization of networks for inappropriate or illegal activities, the intentional spreading of imbedded messages (viruses) or the use of other programs with the potential of damaging or destroying programs, data or equipment. The guidelines will describe the District's limitation of liability and will establish that the use of computers, technology and the Internet is a privilege, not a right. Violation of the procedures and guidelines will result in cancellation of those privileges and appropriate disciplinary action.

Technology Protection Measure

The District will implement a technology protection measure that will block or filter Internet access to visual depictions that are obscene, pornographic or of a harmful nature to minors. Operation of this measure will be monitored and enforced during use of computers by minors.

Audit of Use

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system. Participation in chat rooms is prohibited without specific prior approval by the system administrator. The Superintendent shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law or for accessing prohibited materials. The process may include, but not be limited to:

1. Utilizing blocking/filtering software.

Therefore, students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Student Use

A written parental permission and agreement form will be required prior to the student being granted access to electronic media involving District technological resources. The form will specify acceptable uses, rules of on-line behavior, access privileges and penalties for procedural violations. It must be signed by the parent or legal guardian of minor students (under age 18) and by the student. This document will be kept on file as a legal, binding document. In order to rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

Staff Use

A written staff agreement form will be required for all employees having access to electronic media. Staff shall confine e-mail use to work-related purposes and a reasonable, appropriate and limited personal use that does not interfere with their district duties. The agreement form will refer to the procedures and guidelines for use of computers and the Internet, describe prohibitions and limitations on the use of these resources and state the employee's responsibility for the security of individual passwords.

Community Use

On recommendation of the Superintendent, the Board will determine the conditions and limits under which equipment and services will be made available to the community. Upon request to the Building Principal, community members may have access to electronic resources and programs available through the District, provided they attend any required training and abide by the rules of usage established by the Superintendent. A written agreement form will be required for all community members having access to these resources indemnifying the District from claims by community users.

Disregard of Rules

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using computers, technology or the Internet and related resources.

Responsibility for Damages

INTERNET AND E-MAIL ACCESS PERMISSION LETTER TO PARENTS

Dear Parent/Guardian:

The School District wishes to offer your child limited access to the Internet and an electronic mail (e-mail) account. The Internet is a collection of thousands of interconnected computer networks. The vast amount of information contained within the Internet's libraries can provide valuable learning opportunities to students.

Establishing an e-mail address will allow your child to participate in distance learning activities, communicate with other students around the world, ask questions of and consult with experts, and locate specific material to meet the needs of educational projects.

If your child is a minor (under age 18), your authorization is needed before your child may use these resources. The attached regulations for student use of computers, technology and the Internet should be read carefully and understood by all Internet users. As parents/guardians, you should review it in detail with your children before they begin using the Internet and e-mail in their classroom.

A filtering system is in place to prevent access to certain unacceptable sites on the Internet. However, it is important to understand that no solution is perfect and we cannot guarantee that students will only have access to educational materials. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child should follow. To that end, the School District supports and respects each family's right to decide whether or not to authorize Internet and e-mail access.

If you agree to allow your child to have Internet access and an e-mail address, sign the enclosed Acceptable Use Agreement and return it to your school.

Sincerely,

ACCEPTABLE USE AGREEMENT

The board supports and encourages the publication of a district web site to improve community relations, to foster creativity and to demonstrate student learning. It is a means of providing information to the community about school events and classroom activities, and provides an effective line of communication between the community, staff and students.

The superintendent is directed to develop written web site regulations that pursue the benefits of maintaining a web site while protecting the school and community from its potential misuse. The superintendent will designate a staff member (herein called the Computer Coordinator) to implement the web site regulations and to review all materials published on the web site. All web pages on the web site will conform to this policy and the corresponding regulations.

Staff Web Pages

Staff may create web pages to use in class activities or to provide a resource for other staff members. Staff web pages must reflect the educational goals and objectives of the district. District employees, board members or guests may not establish personal web pages using district resources.

School or Class Web Pages

Schools or classes may establish web pages that present information about the school or class activities. The Building Principal will designate an individual to be responsible for managing the school web site under the supervision of the computer coordinator. Teachers will be responsible for maintaining their class pages.

Extracurricular Organization Web Pages

Extracurricular organizations may establish web pages with the approval of the organization sponsor and the computer coordinator. Material presented on the organization web page must relate specifically to organization activities and will include only student-produced material.

Student Web Pages

Students may establish personal web pages with staff sponsorship and approval by the computer coordinator. Material presented in the student's web pages must be related to the student's educational and career preparation activities.

Other Web Pages

The district may allow other organizations such as parent-teacher groups, booster clubs, school foundations, etc. to publish web pages providing they conform to this policy and the corresponding administrative regulations.

Written Permission

Written permission from both the parent/guardian and the student must be obtained prior to placing any student photographs, artwork, writing or other projects on the web site. No personal contact information about the child, such as home address, phone number, or e-mail address will be given. The work will appear with a copyright notice prohibiting the copying of such work without express written permission. In the event that anyone requests such permission, those requests will be forwarded to the parent or guardian. All such work may be removed from the web site at the end of the current school year.

REPRODUCTION OF COPYRIGHTED MATERIALS

It is the intent of the Board to abide by the provisions of current copyright and intellectual property laws as they affect the school district and its employees. The district shall educate staff and students regarding the harms of copyright piracy.

Copyrighted materials, whether they are print or nonprint, will not be duplicated, reproduced, distributed or displayed for district-sponsored activities or by using district equipment except in accordance with law.

While the district encourages its staff to enrich learning programs by making proper use of supplementary materials, it is the responsibility of district staff to abide by the district's copying procedures and obey the requirements of the law. In no circumstances shall it be necessary for district staff to violate copyright requirements in order to perform their duties properly. The district cannot be responsible for any violations of the copyright law by its staff.

Any staff member who is uncertain as to whether reproducing or using copyrighted material complies with district procedures or is permissible under the law, should consult the superintendent. The superintendent will assist staff in obtaining proper authorization to copy or use protected materials, when such authorization is required.

The superintendent is responsible for implementing this policy and creating procedures to guide employees in following copyright compliance.

COPYRIGHT COMPLIANCE PROCEDURES

Severe penalties may be imposed for unauthorized copying or using of audiovisual or printed materials and computer software, unless the copying or using conforms to the "fair use" doctrine.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. If duplicating or changing a product is to fall within the bounds of fair use, these four standards must all be met for any of the foregoing purposes:

1. The Purpose And Character Of The Use.
The use must be for such purposes as teaching or scholarship; and
2. The Nature Of The Copyrighted Work.
Staff may make **single** copies of: book chapters for use in research; instruction or preparation for teaching; articles from periodicals or newspapers; short stories, essays or poems; and charts, graphs, diagrams, drawings, cartoons or pictures from books, periodicals, or newspapers in accordance with these guidelines; and
3. The Amount And Substantiality Of The Portion Used.
Copying the whole of a work cannot be considered fair use; copying a small portion may be if these guidelines are followed; and
4. The Effect Of The Use Upon The Potential Market For Or Value Of The Copyrighted Work.
If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials may be an infringement, and making multiple copies presents the danger of greater penalties.

Authorized Reproduction and Use of Copyrighted Material in Print

The staff may make **multiple** copies, not exceeding more than one (1) per student, for classroom use if the copying meets the tests of "brevity, spontaneity and cumulative effect" set by the following guidelines. Each copy must include a notice of copyright.

1. Brevity
 - A. A complete poem, if less than 250 words and two pages long, may be copied; excerpts from longer poems cannot exceed 250 words.
 - B. Complete articles, stories or essays of less than 2500 words or excerpts from prose works less than 1000 words or 10% of the work, whichever is less, may be copied; in any event, the minimum is 500 words. (Each numerical limit may be

- expanded to permit the completion of an unfinished line of a poem or prose paragraph.)
- C. One chart, graph, diagram, drawing, cartoon, or picture per book or periodical issue may be copied. "Special" works cannot be reproduced in full; this includes children's books combining poetry, prose, or poetic prose.
2. Spontaneity. Should be at the "instance and inspiration" of the individual teacher.
 3. Cumulative Effect. The staff is limited to using copied material for only one (1) course in the school in which copies are made. No more than one (1) short poem, article, story or two (2) excerpts from the same author may be copied, and no more than three (3) works can be copied from a collective work or periodical issue during one (1) class term. The staff is limited to nine (9) instances of multiple copying for one (1) course during one (1) class term. Limitations do not apply to current news periodicals, newspapers, and current news sections of other periodicals.

Performances by the staff or students of copyrighted dramatic works without authorization from the copyright owner are permitted as part of a teaching activity in a classroom or instructional setting. All other performances require permission from the copyright owner.

The copyright law prohibits using copies to replace or substitute for anthologies, consumable works, compilations, or collective works. "Consumable" works include: workbooks, exercises, standardized tests, test booklets, and answer sheets. The staff cannot substitute copies for the purchase of books, publishers' reprints or periodicals, nor can they repeatedly copy the same item from term-to-term. Copying cannot be directed by a "higher authority," and students cannot be charged more than actual cost of photocopying. The staff may use copyrighted materials in overhead or opaque projectors for instructional purposes.

Authorized Reproduction and Use of Copyrighted Materials in the Library

A library may make a single copy of an unpublished work which is in its collection; and a published work in order to replace it because it is damaged, deteriorated, lost or stolen, provided the unused replacement cannot be obtained at a fair price.

A library may provide a single copy of copyrighted material to a student or staff member at no more than the actual cost of photocopying. The copy must be limited to one (1) article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. In the latter circumstance, the entire work may be copied. In any case, the copy shall contain the notice of copyright, and the student or staff member shall be notified that the copy is to be used only for private study, scholarship, or research. Any other use may subject the person to liability for copyright infringement.

At the request of a staff member, copies may be made for reserve use. The same limits apply as for single or multiple copies designated in “Authorized Reproduction and Use of Copyrighted Material in Print.”

Authorized Reproduction and Use of Copyrighted Music

A staff member may make a single copy of a song, movement, or short section from a printed musical work that is unavailable except in a larger work, for purposes of preparing for instruction.

A staff member may make multiple copies for classroom use of an excerpt of not more than 10% of a printed musical work if it is to be used for academic purposes other than performance, provided that the excerpt does not comprise a part of the whole musical work which would constitute a performable unit such as a complete section, movement, or song.

In an emergency, a staff member may make and use replacement copies of printed music for an imminent musical performance, when the purchased copies have been lost, destroyed, or are otherwise not available.

CLASS SIZE - CLASS GROUPING

It shall be within the sole discretion of the board to determine the size of classes and to determine whether class grouping shall take place. The board shall review the class sizes annually.

It shall be the responsibility of the superintendent to make a recommendation to the board on class size based upon the financial condition of the school district, the qualifications of and number of certificated employees, and other factors deemed relevant to the board.

ANIMALS IN THE CLASSROOM

Live animals will not be allowed in school district facilities except under special circumstances and only for an educational purpose. Permission from the principal will be required of anyone wishing to bring an animal into school district facilities. The person bringing the animal must furnish transportation for the animal brought to school. Animals will not be allowed to travel to and from the student's attendance center on the school bus without prior approval from the principal.

It shall be the responsibility of the principal to determine appropriate supervision of animals in the classroom.

STUDENT FIELD TRIPS AND EXCURSIONS

The principal may authorize field trips and excursions when such events contribute to the achievement of education goals of the school district. The school district will provide transportation for field trips and excursions. Excursions are defined as brief educational trips beyond the boundaries of the school grounds beginning and ending in a single class period.

In authorizing field trips and excursions, the principal shall consider the financial condition of the school district, the educational benefit of the activity, the inherent risks or dangers of the activity, and other factors deemed relevant by the superintendent. Written parental permission will be required prior to the student's participation in field trips.

Field trips and excursions are to be arranged with the principal well in advance. A detailed schedule and budget must be submitted by the employee. The school district will be responsible for obtaining a substitute teacher if one is needed. Following field trips and excursions, the teacher may be required to submit a written summary of the event.

Free Appropriate Public Education (Fape) Related Field Trips

The school district recognizes that school administrators, teachers, and staff have a responsibility under Section 504 and Title II to include students with disabilities on all field trips which are determined to be necessary to provide the student with a free, appropriate public education.

1. Decisions about the inclusion of a student with disabilities must be made in a nondiscriminatory manner by a group of individuals who are knowledgeable about the student and the nature of the student's disability or disabilities. Such a group may include, but is not limited to, the student's individualized educational program ("IEP") team, or Section 504 committee.
2. The determination whether a student with a medical or behavioral disability will participate in FAPE-related field trips shall be identified in the student's IEP or Section 504 Plan, or by the educational or behavioral benchmarks which the student should meet in order for the FAPE-related field trip to be appropriate. The team or committee will also determine the appropriate accommodations, if any.
3. Any decision to exclude a student with a disability from a FAPE-related field trip due to factors that are, or may be, related to the student's disability must be made on the basis of current evaluative data about the nature and manifestation of the student's disability.
4. The school district will provide behavioral support from a qualified adult at no cost to

the parent if such support is needed to facilitate a student's participation in a FAPE-related field trip, including travel.

PLANNING AND RECORD-KEEPING BY TEACHERS

Quality lesson planning is necessary to help ensure the teacher that key elements of an effective lesson are presented. Lesson plans aid the principal, supervisor and substitute teachers in understanding the regular classroom teacher's plan for teaching the course of study as adopted by the School Board. Lesson plans should also be prepared by teachers whose assignment may vary from regular classroom work in order that their scheduled activities may be observed with understanding or replicated by a substitute teacher. Generally, teachers will prepare lesson plans on a weekly basis although they are expected to have general plans which cover the length of the course. Plans will be kept by the classroom teacher in a place known to and accessible to the building administrators. The principal may further require teachers to provide copies of lesson plans to the school office at reasonable times and intervals as determined by the principal.

The lesson plan should be of sufficient length and substance to allow a substitute teacher to carry on the course of study and to provide a means by which principals and supervisors may monitor instruction to assure that the educational program in a particular class or activity is related to the district-approved course of study.

Although the district will provide lesson plan books, principals may request another system or format for the presentation of lesson plans provided it meets the purpose of planning. Principals may also require more detail or specific plans to assist individual teachers, or they may minimize the use of lesson plans when such action will not compromise the stated purpose of lesson planning.

It is recognized that provision for flexibility is essential within the lesson plan to allow for unexpected changes and varying learning rates.

SCHOOL VOLUNTEERS

Citizens who voluntarily contribute their time and talents to the improvement and enrichment of the public schools' instructional and other programs are valuable assets. The board encourages constructive participation of groups and individuals in the school to perform appropriate tasks during and after school hours under the direction and supervision of professional personnel.

The administration is responsible for the recruitment, use, coordination and training of volunteers. These assignments will be carried out as directed or delegated by the superintendent. Every effort should be made to use volunteer resources in a manner which will ensure maximum contribution to the welfare and educational growth of students.

Approved _____ Reviewed _____ Revised _____

SERVICE ANIMALS AND THERAPY DOGS

The Board recognizes that service animals may be used to provide assistance to some persons with disabilities. This policy governs the presence of service animals in the schools, on school property, including school buses, and at school activities.

A service animal is a dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals are not service animals for the purposes of this definition, though miniature horses are entitled to similar treatment in certain circumstances.

The service animal must perform tasks or do work for the individual with a disability. The work or tasks performed by a service animal must be directly related to the individual's disability, such as:

- Assisting individuals who are blind or have low vision with navigation and other tasks,
- Alerting individuals who are deaf or hard of hearing to the presence of people or sounds,
- Providing non-violent protection or rescue work,
- Pulling a wheelchair,
- Assisting an individual during a seizure,
- Alerting individuals to the presence of allergens,
- Retrieving items such as medicine or the telephone,
- Providing physical support and assistance with balance and stability to individuals with mobility disabilities, and
- Helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

Excluded from the lists of acceptable tasks or work performed by a service animal are:

- The crime deterrent effects of an animal's presence, or
- The provision of emotional support, well-being, comfort, or companionship.

When determining whether an animal qualifies as a service animal, school officials may ask the individual with a disability only two questions:

1. Whether the animal is required because of a disability; and
2. What task or work the animal has been trained to do.

These questions may not be asked if it is readily apparent that the individual has a disability or that the animal is trained to do work or perform tasks for the individual with a disability. School officials may not ask about the nature or extent of a person's disability, nor can a request be made to produce a certificate establishing the dog's qualification as a service animal.

Approved _____ Reviewed _____ Revised _____

The service animal must remain well-behaved and under control at all times at school. The service animal must have a harness, leash or other tether unless it cannot be used by the person in control because of a disability or if it would interfere with the service animal's performance. In either case, the animal must still be under control by way of voice controls, signals or other means.

Individuals with disabilities are permitted to be accompanied by a service animal in all areas of the district's facilities where members of the public, participants in services, programs, or activities are normally allowed to go. If the service animal has a separate handler, that individual shall also be allowed access to facilities. At events for which an attendance fee is charged, there shall be no additional fee for the service animal.

The district may remove or exclude a service animal from district facilities if:

1. The animal is out of control and the animal's handler does not take effective action to control it;
 2. The animal is not housebroken;
 3. The presence of the animal poses a direct threat to the health or safety of others;
- or
4. The presence of an animal would require a fundamental alteration to the service, program or activity of the district.

In the case of removal of a service animal from the premises, the individual with a disability shall still be provided with the opportunity to participate in the service, program, or activity without the service animal.

The person in control of the service animal, and not the school district, is responsible for caring for the dog's needs. This includes any feeding, exercising, and clean up. The district may charge for any property damage caused by the service animal provided the district normally charges individuals for damage they cause.

Therapy Dogs

A therapy dog is one that is used to provide emotional support, well-being, comfort, or companionship to students. Such dogs are generally not intended for the personal use of district students or employees and will only be approved at the discretion of district administration and counselors for their intended purpose. Prior to the consideration of the use of a therapy dog by an individual student, administration and counselors shall consult with the student's parent/guardian and the student's health care provider.

In the case of considering the routine use of a therapy dog by an individual student, the limitations stated above for service animals will also apply to therapy dogs. In addition the school will require that the therapy dog's owner must provide to the district a proof of vaccinations received by the therapy dog as determined by and signed by a veterinarian, for the district's files. These records shall be maintained in the district's files. The therapy dog must be spayed or neutered. The therapy dog must show no aggression toward people or other animals and must not bark or make other distracting noises while in school. The therapy dog may not interfere with the educational process of any student.

The district may also require that the therapy dog has been obedience tested and certified as Canine Good Citizens by the American Kennel Club (“AKC”) and certified for temperament as a therapy dog with a specific handler by the AKC and supply supporting documentation of such certification satisfactory to the superintendent. The district shall maintain copies of current certifications in its files.

TEST OR ASSESSMENT SELECTION

A comprehensive testing program shall be established and maintained to evaluate the education program of the school district and to assist in providing guidance or counseling services to students and their families.

No student shall be required, as part of a program funded by the United States Department of Education, to submit, without prior written consent from the student's parent, to surveys, analysis or evaluation which reveals information concerning:

- political affiliations;
- mental and psychological problems potentially embarrassing to the student or the student's family;
- sex behavior and attitudes;
- illegal, anti-social, self-incriminating and demeaning behavior;
- critical appraisals of other individuals with whom students have close family relationships;
- legally recognized, privileged and analogous relationships, such as those of lawyers, physicians and ministers; or
- income, but not including income required by law to determine eligibility for participation in a program or for receiving financial assistance under such program.

TEST OR ASSESSMENT ADMINISTRATION

1. State Assessments.

The district has adopted an assessment plan and has aligned the curriculum with the state approved content standards. The assessment plan includes a schedule and procedures for assessing success in achieving state standards.

Teachers are to clearly articulate the learning targets and align instruction to the learning targets within each of the content standards. Teachers are to give students instruction on the content prior to students being assessed on each content standard in order to provide learning opportunities for all students.

The assessments are to be conducted in accordance with the assessment plan schedule. Teachers are to conduct the assessments in a manner that assures it accurately assesses whether or not students are meeting the targets outlined by the content standards.

Assessment results are to be reported by the teachers in the manner and within the time directed by the administration or designee. The assessment data is to be used to meet state standards, to provide students and parents with information about student progress, to enhance school improvement planning, and to improve instruction. The assessment data is to be evaluated by teachers to monitor student learning and to improve instruction or terminate ineffective teaching practices to ensure students are being given the opportunity to meet the standards.

The superintendent, in directing the assessment system, shall hold administrators and staff accountable to:

- a. follow appropriate security procedures;
- b. use the assessments identified within applicable curriculum guides;
- c. use assessment data to monitor student learning;
- d. use assessment data to differentiate instruction where appropriate;
- e. provide students and parents with information about student progress;
- f. use assessment data for school improvement planning; and
- g. use assessment data to adjust, improve, or terminate ineffective teaching practices.

2. Achieving Valid Assessments.

Educators are responsible for maintaining the integrity of the assessments to ensure that assessments provide a valid measure of student progress and accomplishments. Educators are not to engage in any practice that may result in assessment results that do not reflect student learning, knowledge, skills or abilities in the area assessed.

Approved _____ Reviewed _____ Revised _____

For purposes of this policy, student assessments include both “standardized assessments” (including state assessments, norm referenced tests, and evaluations conducted for special education eligibility) and “coursework assessments” (e.g., classroom tests, quizzes, and other evaluative tools used to assign grades).

The following specific assessment expectations and rules apply:

- a. Integrity of the Assessment Instrument. The integrity of the assessment instrument is to be maintained. Administrators shall establish and monitor the chain of custody, limiting and recording who has custody of the testing materials and ensuring they are kept in a secure location when not being administered.
 - i. Standardized Assessments. Standardized assessment instruments are not to be made available to students at any time before the student takes the assessment. The assessment instrument is to be maintained in a secure manner.
 - ii. Coursework Assessments. Coursework assessment instruments are to be periodically modified to keep the assessments current and prevent students from effectively using “test banks.” For coursework assessments that are given on a repeat basis to students at different times (e.g., a test that is given to students throughout the school day), the educator is to remind students to not share the content of the assessment with students who will be taking the assessment later.
- b. Teaching for Success on Assessments.

It is appropriate for educators to prepare students to do well on assessments. This is to be accomplished in a manner that assures the assessment accurately reflects the student’s knowledge, and not simply test preparation.

- i. Teach the Content. Educators are to prepare students to do well on assessments by teaching the subject content. Educators are not to “teach to the test” by teaching based solely on the content of the assessment. The content is to be taught to the students over an appropriate amount of time prior to the assessment. “Cramming” assessment content just before the assessment is to be taken is not appropriate. Review of content previously taught is appropriate.
- ii. Practice Tests. Educators are to prepare students by teaching test taking skills independent of the subject matter being assessed. Educators are not to conduct reviews (drills) using earlier (no longer published) versions of the same test, using alternate (parallel) forms of the same published test, or using actual items from the current form of a standardized test that will be administered to students. Educators are not to conduct reviews (drills) using items of identical format (for example, multiple choice) to the exclusion of other formats.

- c. Conditions for Successful Assessments.
- i. Communications. Educators are to communicate to students and parents when assessments will be administered, the purpose of the assessment and how the assessment results will be used. Educators are to motivate students to do their best on assessments. Educators are to read and be familiar with assessment administration directions in advance and communicate the rules to students accurately and clearly.
 - ii. Climate. Educators are to have sufficient assessment materials available (e.g., No. 2 pencils, if needed). The classroom is to be arranged to allow comfortable seating. Distractions are to be eliminated. Educators in nearby classrooms are to be informed that the assessment is to be administered so noises from neighboring classrooms are kept at a minimum. Activities or arrangements are to be made for students who finish early so such students do not cause a distraction to other students still taking the assessment.
 - iii. Security. Educators are to monitor students while administering assessments to ensure students are complying with standards of academic integrity. Students who violate standards of academic integrity are to be reported to the administration.
- d. Full Participation. Educators are to make efforts to have all eligible students take the assessments. The educator should develop a list of students who will be exempted from assessment and the reason for the exemption and submit the list for review and approval by the Principal.
- e. Assistance During Assessments.
- i. Standardized Assessments. Educators are not to provide assistance to students while a standardized assessment is being administered except as provided for in a student's 504 Plan or IEP. Educators are expected to follow best professional practices in administering the assessment to prevent testing irregularities. This includes giving "hints," giving extra time, reading the tests to students or defining or pronouncing words for students, allowing students access to instructional material related to the content of the assessment (e.g., displaying a map during a social studies assessment) or allowing students access to mechanical aids (e.g., calculators).
 - ii. Coursework Assessments. For coursework assessments, students may be allowed access to instructional materials or mechanical aids only when all students being given the assessment are given the aids and use of the aids does not hinder the students from learning the content of the lesson.

- f. Student Answers. Assessments are to reflect the students' work as submitted by the students. During the assessments, educators are to monitor students to make sure directions are being followed (e.g., students are using a No. 2 pencil on all "bubble" sheet assessments and completely erase mistaken answers and extra marks on "bubble" sheet assessments). Educators are not to change answers on a student's assessment sheet or otherwise participate in the submission of false or misleading assessment results.

Violations of the rules and expectations set forth in this policy will be considered to be a breach of the District's standard of ethics and may result in disciplinary consequences. Educators are to report suspected violations of the expectation to the administration. The administration is to investigate and appropriately respond to violations of the expectations.

A staff member found to have committed testing irregularities shall be subject to discipline in accordance with law and Board policy. If the individual is a certified staff member, the Superintendent shall make a timely report to the Nebraska Professional Practices Commission.

STUDENT PROMOTION, RETENTION OR ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgement of the teachers and the principal, such exceptions are in the best educational interest of the students involved. Exceptions will always be made after prior notification and explanation to the student's parents, but the final decision will rest with school authorities.

When it becomes apparent a secondary student will be unable to meet the minimum credit requirements for the year, both the student and parents will be informed. Students who cannot demonstrate proficiency at their grade levels will also be considered for retention. Teachers must notify the principal of these students, make a recommendation to the principal concerning their promotion or retention, and hold a conference with parents.

The principal may require remediation at the parents' expense as a condition of promotion to the next grade level. The parents will be requested to indicate in writing their agreement or disagreement with the recommendation for retention. The final decision will rest with the school administration. Parents may request retention if they believe it to be in the best interest of their student. The principal will confer with the teachers and parents to determine appropriate action.

More than one retention during the elementary school years will receive special consideration and require the approval of the superintendent based on the recommendation of the principal, teacher and parent or guardian.

Students with exceptional talents may, with the permission of the principal and parents, take classes beyond their current grade level.
