26. Comments and/or Suggestions:

· These ratings may seem a bit harsh,however I was at a significantly larger school before Hemingford. My previous school was #1 in the state of Wyoming, so it was very strict. Therefore, these ratings are a bit harsh because I am used to a more reinforced, strict school environment.

· Jag is the only class that helped me be more prepared for life. All the other ones suck at doing so.

· When N/A was chosen means I don't have a clue

· The homework every night in certain classes is ridiculous and unnecessary especially in a town where kids have jobs and other responsibilities at home.

· catch the problem first before waiting till it gets bad and don't wait till the last week

· People need to learn to park with the line angles and not park straight. So also no one is getting there vehicles dinged like someone digged my pickup this year bc they didn't know how to park.

· this school is really nice to be in and I get to learn a lot about it before going to college

· I think we should do more when someone is getting bullied not just be on the other person's side her is bullying because you are related to them

· Let the seniors get their own parking spot in the south campus and no one can park there accept them.
